	Name of Feature	Location	Personal Info	Date	Other Info
1092	Pulpit Hill Creek 1	A perennial creek rising on the Blue Mountains Range west of Blackheath. It flows generally south and SW into the Coxs River.	Named after Pulpit Hill. This creek flows though Blackheath Glen and the Megalong Valley.	Shown on the Parish of Megalong, County of Cook, 6th May 1893.	Approx length of creek 13 km. Parish map also shows name of (see) Kurranburrock Creek. Pulpit Hill Swamp shown on the County of Cook Map 16th November 1921 as north of the junction of Coxs River.
1093	Pulpit Plateau	See Radiata Plateau, Katoomba.			Previously named after Pulpit Hill.
1094	Pulpit Reserve 1	A small reserve near the bridge over Pulpit Hill Creek in Peach Tree Road, Megalong Valley.	Named after Pulpit Hill Creek.	Named approved 22nd November 1974.	(Ref: Geographical Names Board Database). There are also three other reserves in this vicinity gazetted between 1969 and 1971 having the BMCC as trustees as shown on the Crown Lands Database.
1095	Pulpit Rock 2	A rock face which over hangs the western side of Nelly's Glen, Megalong Valley. And a part of the eastern wall of Radiata Plateau, Katoomba.	Descriptive term given to the rock formation rising above the surrounding area the trees below giving the impression of a congregation.	Shown on the Dunphy's Kedumba - Blue Labyrinth Map, September 1961.	Approx height of the escarpment at this point 150m. Butler and Davidson's map of 28th January 1832 shows this feature as Pulpit Head.
1096	Pulpit Rock 3	Located on the Overcliff Track near the Conservation Hut, Valley of the Waters, Wentworth Falls.	Descriptive name for this rock formation.	Wilf Hilder recalls this was signposted early 1970's.	(Ref: Written notes from Wilf Hilder 15th July 1999).
1097	Pulpit Rock 2	A rock formation on Pulpit Hill, Radiata Plateau, Katoomba.	Named by Governor Macquarie on his trip from Sydney to Bathurst, due to the rock formation looking like a pulpit.	Named in 1815.	Shown on George Evans c1815 plan of (1813-1814) crossing of the mountains. This rock was destroyed when the Western Road was being remade.
1098	Pulpit Rock 2	A small rock formation on the escarpment southern end of Kanimbla Valley Road, Mount Victoria.	This small sandstone rock formation resembles a preacher's pulpit.	Shown on a surveyed map plan 11th March 1912 drawn by Arthur Stephen, Licensed Surveyor.	This map plan shows a pathway along the top of the escarpment, connecting Pulpit Rock with Ross Cave Reserve . Pulpit Rock is on Portion 131 Parish of Hartley County of Cook. (Ref: Survey Plan Ms1276,Oe. Department of Lands).
1099	Pulpit Rock 2	A small rock formation near the intersection of Terrace Falls Creek and Terrace Falls Road, Hazelbrook South.	Descriptive name given to this rock formation.	Mentioned in the Hazelbrook Trustees Minute Book of 16th November 1892.	Shown in Keith Painters book "Terrace Falls" 1997, map 1 as Pulpit or Orphan Rock. The road though this area to Terrace Falls was constructed in 1892/3.
1100	Pulpit Rock 2	A rocky pinnacle about 15m high below and inaccessible to Pulpit Rock Lookout. Located beside the western wall of Govetts Gorge NE of Govetts Lookout, walking access via Pulpit Rock Track, Blackheath.	Descriptive term given to this rock formation resembling a pulpit. Access via Hat Hill Rd or walking track from Govetts Leap which was constructed in 1936. (Ref: Blackheath Minutes Book 22-1-1936).	Shown on the Map of Blackheath in "The Pictorial Guide to the Blue Mountains", 1882.	Pulpit Rock has six viewing points connected by steps, boardwalk and ladders. Extensive views of Govetts, Grose Canyon and cliff line in a 210 degree angle.
1101	Pulpit Rock 3	Located below Tuckers Lookout, Medlow Bath.	Named by Mark and Elizabeth Foy.	Possibly named in the period 1902-1903.	Mark Foy named many of the natural features on his property, (Hydro Majestic, Medlow Bath) .
